Dear Friends,

In my more than 30 years working in the dairy and food processing industry I have never come across an opportunity like this. The Golden Cheese of California plant in Corona, California was, at one time, the largest cheese operation in the country. And now all of this beautiful equipment is being offered for sale!

This is a once-in-a-lifetime auction sale that should not be missed. For two days, August 6th and 7th, we will be auctioning everything from 60,000 gallon silos to 1" clamps. Don't miss this opportunity to bid on a huge selection of dairy processing and related equipment!

Our website is being updated frequently with more information about the equipment being offered, so be sure to visit us regularly online at [www.mdavisgrp.com](http://www.mdavisgrp.com). If you have any questions please feel free to call us at 412-521-5751.

My team and I look forward to working with you and answering any questions you have.

See you there!

Martin I. Davis
